[ ] spoke to me about [ ] request for her services. She apparently is absolutely invaluable to the project. I see no problems if she is used only after hours and on weekends, though I felt this might put strong demands on her health. She said she has done this many times in the past.

OK

On basis that  
when & if, A.S. believes  
this would impair her service  
capability in the office,  
she will say such! We  
don't want her as a heroines only  
but want her in the hospital
